Dear Russ,

In answer to your request in Echoes for airplanes of the 306th, I am enclosing copies (xerox) of several pictures of planes with information I remember about them.

If any of these are of value to you, let me know which ones, and I'll forward a copy of the picture to you.

I have several others not included. I am going to try to enhance the original photo and if successful I'll send that info on to you.

Regards,
