Dear Bill Collins —

I have written Russell King
telling him I am an old 423^{er}
who returned (after 28 yrs of med school &
private practice) to the Air Force and
am now stationed about 30 miles away from
Shurleigh. Paid it a visit about a month
ago, and it is much changed.

Enclosed small contribution to help with
your expenses.

Also, one of our "Bird Deaver" pilots —
FORREST STEWART — is now living in London
(he is a top executive engineer with the
Ayrworth - Bank Company). He would love to
receive the "306th Echo". His address is:

THEODORE E. MARVIS, M.D.

PHYSICIAN - SURGEON

19 Feb.

Dear Russell —

I am an old "Erim Beager" (423rd) and after leaving the Air Corps in 1946, went to med school, and after 20+ years private practice in San Diego, Cal., I returned to the Air Force (!) and am now stationed all of 25 miles from our old Thuleigh base. I'm sure I'm the oldest (57) 306th ^{eye}er still on active duty — I defy you to find an older one. My old buddy, and one of our finest 423rd pilots, Forest Stewart works for Angewell-Rand, is a high level exec (he completed Engineering school post war, while I was slogging through med school) has just moved to London, and we visited the old place last month. Sure as hell has changed! Couldn't tell runways from cow pastures. We think we found our old

423 rd site, and maybe on old Nissen hut.
We intend making a return visit (this
one was on a Sunday, and everything closed)
in the future. The old control tower seemed to
be still there. Also the old officers mess.

I am sending Forrest Stewart's current
address to Bill Rollets.

Please accept the enclosed small
contribution. You do a great job!

Sincerely,

Theodore E. Marvis, M.D.
Colonel, USAF (MC)

P.S. —
Will send
check to
Bill Collins, I
guess he pay the
bills. If not he
owes you \$25⁰⁰.
