Dear Russ:

We just found another long-lost 369th friend.

Robert Kane, was my Navigator for six months while in Marrakech on the Casey Jones Project in late 1945 and early 1946. If I'm not mistaken he originally was on John Callahan's crew that flew missions in February/March 1945.

Please send him a form so he give you all the information you need. His address is: 8 Whittlebury, Rochester, NY 14612.

Also, are we ever going to do another Association Directory?

Thanks so much for all your good work!

Sincerely,

A handwritten signature in cursive script that reads "William Pengra". The signature is written in black ink and is positioned below the word "Sincerely,". The signature is fluid and extends across the width of the page.
