Wauseon Ohio 43567

Dear Mr. Strong:

On Aug. 15-1990 memories came back and was pleased to be able to see and go through a B-17-G that was at Metcalf Field near Toledo Ohio.

The B-17-G Flying Fortress, The Sentimental Journey stood there big and proud with thousands of people, young & old waiting to see and go through this great plane.

The tour is sponsored by the Harlingen, Tex based Confederate Air Force, a organization dedicated to preserving World War II Aircraft.

While standing in line with my wife Virginia a lot of talk was going on about this plane. I was pleased to tell of my experiences on it (3 years). I did not fly. I worked on the ground repairing battle damage to sheet metal. There were times when I thought we would never get any sleep.

While standing in line waiting to go through

The plane I saw a man that was very interested. Comats find out it was a man from the 368 Sqd. of the 306 Boom Group. I was with the 423rd just down the road. This reunion was a pleasant one.

His name. ROLAND BOCIAN

3310 MAPLE ST.

TOLEDO, OHIO 43608

306 Boom Group - 368 Sqd.

This is a new address for you.

I know very little of him except he was a tail gunner. His pallet was killed on a mission and they went down in France in 1944. He was later returned to England via a C47

Roland is interested in receiving the Echoes and keeping up with things

Yours Truly
Robert L. Seiler

Dear Sir:

2-5-92
330 Frances Dr.
Channah 043567

I wanted to inform you
that Robert L. Seiler passed
away Dec 21st 1991 -

He was with the 8th
Air force 423rd from 1942-1945
Serving in England Sheet metal work

He received your paper
306th Echoes and was so
very proud to have served
his country. Although he
never attended any of the reunions
he would have loved to go
back to England this year. He
read & had ~~the~~ ^{both} books 1st over
Germany

Sincerely
Virginia Seiler
