BILL:

I've checked the directory all to no avail. Thought you might know if they are still living. Maybe you could list them in a future publication of "Echoes", to see if some other person may possibly know of their whereabouts. I'm sure you've done this before from time to time. "Hube" did live in No. Adams, Mass. briefly but haven't heard from him since his departure from that area many years ago.
